Zodiac *salt* water chlorinators automatically sanitize your pool so you can enjoy the sweeter things in life.

Zodiac® Salt Water Chlorinators

Have silky soft water and a sparkling, natural looking swimming pool all the time - automatically!

No more unhealthy high or low levels of chlorine in your pool.

Water is sanitized automatically and continuously, ensuring a constant level of chlorine in your pool, even when you are away.

No more buying, handling or storing chlorine.

A Zodiac Salt Water Chlorinator takes care of these chores, so you can spend more time enjoying your pool. The system converts salt (sodium chloride) into chlorine. The chlorine destroys bacteria and algae, and then converts back to salt to be used over and over again.

Have brilliant, crystal-clear water that feels soft, smooth and silky.

Put an end to red eyes, dry skin and an overpowering chlorine smell. Your pool will sparkle and feel great!

Water balance made easy.

When your pump is on, the Zodiac Salt Water Chlorinator is at work. With fewer fluctuations in chlorine levels, pH levels are more stable. As a result, the pool's water is much easier to balance.

Technology that is proven, dependable and reliable.

Zodiac is the global leader in salt water chlorinator manufacturing and has over 30 years of experience with this technology.

Features of the Zodiac Salt Water Chlorinator:

Clear Cell

You know its working because you can see inside the cell and watch the sanitizing action.

Simple Operation

Easy Installation On Almost Any Pool
